SUMMARY

Undergraduate in the Interdisciplinary Business & Economics Program at Renmin University of China, with a GPA of 3.76/4.00 and ranked 3rd in my cohort. Experienced in AI-assisted recruiting, talent mapping, investment operations, industry research, and empirical analysis. I build reusable Agent skills and lightweight web tools that turn repetitive workflows into structured, measurable outputs.

EDUCATION

Renmin University of China — **Sep 2023 - Present**

Interdisciplinary Business & Economics Program

GPA: 3.76/4.00 · Ranked 3rd in cohort

EXPERIENCE

ByteDance Seed — **Jan 2026 - Jul 2026**

HRBP for AI Infra

- Supported campus and experienced hiring and recruiting-team adoption of AI tools. Built a reusable Lab Mapper Skill in Codex to map 500+ master's and PhD students from relevant labs for the 2027 cohort, several times faster than the previous manual workflow.
- Automated daily paper and author briefings with Feishu Aime and Mira. Built an Author Sourcing Skill for EuroSys, ASPLOS, and FAST, shared AI practices and reusable skills weekly, and collaborated with the AI recruiting product manager on practical use cases.

Ubiquant Partners — **May 2025 - Oct 2025**

Investment Operations & HR Intern

- Independently tracked AI, deep tech, embodied intelligence, advanced manufacturing, and the low-altitude economy, producing research briefs, meeting notes, and interview summaries on companies and technologies.
- Supported recruiting for 8 roles in one month, recommending 10+ resumes per day with an interview invitation rate of about 80%. Later led 2 HR interns to create a recruiting SOP, learn end-to-end workflows, and coordinate searches and headhunters.

Xinliu Think Tank — **Sep 2024 - May 2025**

Industry Research Intern

- Tracked semiconductors, embodied intelligence, AI, and intelligent driving. Used Wind, Bloomberg, company websites, and IT Juzi to analyze company financials and industry developments.
- Wrote dozens of research and media articles, including company timelines, event analysis, and assessments of strategic developments.

China Merchants Securities — **Jun 2024 - Sep 2024**

Bond Underwriting Intern, Investment Banking

- Assisted with offering memoranda, due-diligence reports, project bids, and roadshow materials. Analyzed the debt-servicing capacity of Xi'an Bank and Jinneng Holding Group, and used Qichacha, Wind, and iFinD for risk checks and data preparation.

SELECTED PROJECTS

DDL.MISSION — Oct 2026

Independent Developer · Pixel-Space Deadline Manager

Built a deadline manager with natural-language input, second-by-second countdowns, recurring tasks, native macOS notifications, a desktop widget, and multi-device sync. Used vanilla HTML/CSS/JavaScript and a Python standard-library server.

Healthy Meals · JD Technology Tower — Oct 2026

Independent Developer · Mobile-First Web App

Built a single-file app for weekly meal plans, vendor price comparison, meal expense tracking, weight trends, and weekly reviews. Used local browser storage with optional multi-device sync through a Cloudflare Worker.

RESEARCH

Modeling Ecological and Economic Impacts of Agricultural Practices for Sustainable Farming

Core Member · 2024 Mathematical Contest in Modeling, Meritorious Winner

Built a multi-scale coupled modeling system integrating dynamic systems, toxicology, and multi-objective optimization. Responsible for data preprocessing, visualization, and paper writing.

How Does Proactive Fiscal Policy Strengthen Supply-Chain Resilience in Advanced Manufacturing?

Second Author · First Prize, Renmin University Innovation Cup (Top 1%)

Analyzed 2015–2023 Chinese A-share advanced-manufacturing data using a high-dimensional two-way fixed-effects model, difference-in-differences, Python-based text measures, and a multidimensional TOPSIS index.

The Impact of Age Discrimination at 35 on Firm Performance

Second Author · RUC Qiushi Academic "Shoushan" Research Grant (Top 10%)

Used listed-company recruitment text and double/debiased machine learning to quantify age discrimination and examine labor-allocation efficiency, innovation capability, and R&D intensity.

LEADERSHIP & ACTIVITIES

- Class Monitor, Human Resource Management Class 2, Class of 2023, School of Labor and Human Resources, Renmin University of China.
- Deputy Head of the School Student Union Practice Department; Core Member of the GEA Association; Member of the School football team.
- Selected honors include Sanhao Student, Outstanding Student Cadre, Second-Class Academic Excellence Scholarship, and the university A-League football championship.

SKILLS

AI & Workflow	Codex, Claude Code, ChatGPT, Grok, Agent Skills, Feishu Aime and Mira
Data & Research	Python, Stata, Wind, iFinD, Bloomberg, CSMAR, LaTeX
Development	HTML, CSS, JavaScript, Python standard library, Cloudflare Workers, localStorage, Git and GitHub
Communication & Media	Microsoft Office, Xiumi, Canva, Audition, Premiere
